Daily Average	243	256			267	263		

April has been a very good month with an 11% increase in passenger numbers, with the moving annual total (incl Transit) exceeding 21 million for the first time since February 2009. The freight figures showed an improvement this month with a year on year rise of 5.2%. Charter passenger figures continue to decline, but the question is which airlines are still charter operators??
