In 2020 the airport didn't publish their normal passenger numbers for April/May and June, so the table above is somewhat depleted. Whilst the passengers numbers for April 2021 are actually less than March 2021, the comparison to April 2020 is very stark, with movements increasing by 153%, Passengers by 244% and freight by 288%. Hopefully these type of figures will continue for many months to come.
