The Passenger figures show now sign of real recovery. The Year on Year reduction for this month is - 10.6% (incl Transit), which is the best since September 2009, but still not good! We are now back at the Moving Annual Total figures last seen in 2000. The freight figures however, have increased year on year for the past 3 months and is a very healthy +18.5% this month, however, bear in mind the freight figures have had a larger drop than the passenger figures. The freight MAT reduction this month is - 20.45%, the best since January 2009. Let's hope the passengers now follow the freight figures.
