Daily Average	280	247			321	301		

Again a slight reduction in passengers and movements (-1.1% and -0.4%) and a bigger reduction in freight of -8.7% when compared to February 2019, However February 2020 has 29 days, so would normally have shown an increase of just over 3%, so probably the Coronavirus pandemic was already starting to affect passenger numbers
